

Highway Driver

Day after day/ on the road again/ every time in a hurry/ no time to lose/
Two more hours/ driving thru the rain/ listening to the radio/ bloody
fucking news

He's a highway driver driving all day long
He's a highway driver driving all night long

Next eight hours/ you're leaving the road/ you have enough/
wanna have a break/ last 10 hours you've been/ driving around the world/
To your girl/ 100 miles to make

He's a highway driver driving all day long
He's a highway driver driving all night long

Now at home/ leaving the car/ telephone rings/ who could it be/
My boss wants me/ to make a run/ and I think/ fuck it I'm done

He's a highway driver driving all day long
He's a highway driver driving all night long

Solo

Hey guy/ how are you today/ come to me/ I got a load to drive
You goanna lose a lot of money/ if you don't stay/
It's the best chance/ of your life

A lot of money/ that's what I need
That's why I'm back night/ now on the street

I'm so tired/ I'm feeling so bad
I'm in an accident/ that's why I'm dead

I was a highway driver driving all day long
I was a highway driver driving all night long
